CUZEN MATCHA

What The Matcha Maker Pro Does

Matcha Leaves

Grinding

Whisking

Matcha Shot

Values for B2B Customers

Simply, a better
matcha in a minute

Less barista training
& more consistent quality

Additional margins by offering
premium matcha drinks

CUZEN MATCHA

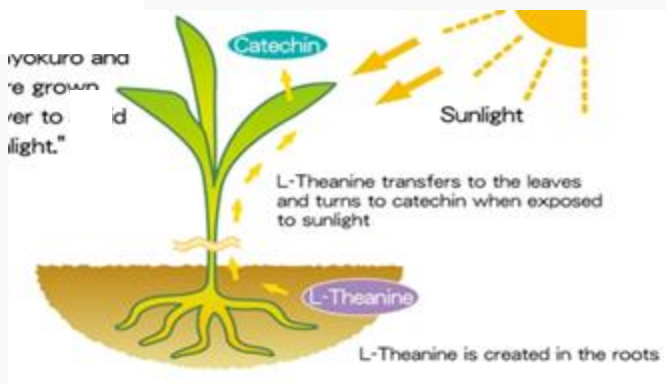

Our Features

We use only
organic matcha

as they contain larger
amount of l-theanine

We use only
shade-grown leaves

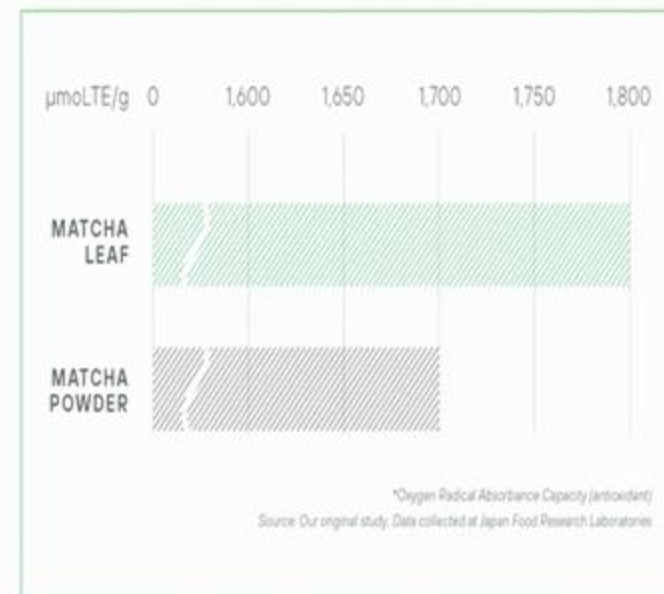

as drinking matcha is literally
eating entire leaves

We use only
freshly ground matcha

MATCHA ANTIOXIDANT ORAC* VALUE

Preserved at 98°F (37°C) for 2 months

as it has fresher taste
and more nutrition

Recommended Cleaning Method

Signature tea leaves / Continuous Operation

— 0 gr — 100 gr — 200 gr

Based on our continuous operation experiment results

Larger particles begin to mix in around 100g.

When exceeding 200g, larger particles increase, affecting the smoothness. (texture)

Therefore, clean the mill after using 100-200g of tea leaves depending on usage conditions to minimize grittiness.

CUZEN MATCHA

Recommended Cleaning Method

Clean the mill after using 100-200g of tea leaves to minimize grittiness.

Mill parts where powder accumulates

Remove accumulated powder (gently tap to dislodge, wipe with a dry cloth) groove.

CUZEN MATCHA

Recommended Cleaning Method

Matcha Latte (3g) about 10-20 cups per day (30-60g / per day)

↳ Mill cleaning at least once a week.

Matcha Latte (3g) about 30 cups per day (90g / per day)

↳ Mill cleaning at least twice a week.

Matcha Latte (3g) about 50 cups per day (150g / per day)

↳ Mill cleaning at least every other day.

Matcha Latte (3g) about 100 cups per day (300g / per day)

↳ Mill cleaning at least daily.

Mill parts where powder accumulates

Dry clean by sweeping out with a
long-handled mill brush.
